PLC-008	Programmable Logic Controller	3	125,000.00	10%	337,500.00

Test 4 — Merged header cells and grouped columns

	Q1			Q2		
Region	**Jan**	**Feb**	**Mar**	**Apr**	**May**	**Jun**
North	125000	132500	128000	141000	138500	145000
South	98500	102000	107500	110000	114500	118000
East	113000	116500	119000	121500	124000	129500
West	89000	92500	96000	99500	103000	106500

Test 5 — Borderless table with blank cells

Asset Tag	Machine	Location	Last Service	Next Service	Remarks
AST-001	Air Compressor	Utility Room	2026-01-12	2026-07-12	OK
AST-002	Loom Machine 14	Production Hall	2026-02-05		Pending schedule
AST-003	Hydraulic Pump		2026-03-18	2026-09-18	
AST-004	Cooling Tower	Roof		2026-12-01	New asset
AST-005	Generator 2	Power House	2026-04-20	2026-10-20	Check vibration

Test 6 — Financial table with negative values and totals

Account	Debit (PKR)	Credit (PKR)	Net Balance (PKR)
Cash	250,000	175,000	75,000
Accounts Receivable	420,000	120,000	300,000

Account	Debit (PKR)	Credit (PKR)	Net Balance (PKR)
Accounts Payable	90,000	240,000	-150,000
Inventory	310,000	85,000	225,000
Utilities Expense	65,500	0	65,500
TOTAL	**1,135,500**	**620,000**	**515,500**

Expected extraction checks

1. Detect six independent tables and preserve row/column order.
2. Recognize borderless tables using text alignment and whitespace.
3. Preserve merged cells in the quarterly header (Test 4).
4. Keep blank cells in their correct positions (Test 5).
5. Preserve negative numbers, decimal values, percentages, and totals.
6. Identify header rows separately from data rows.
